## Make the Most of Vacation!

When traveling, it's often hard to get a good night's rest. The airplanes are loud, the hotel is noisy, and the jet lag is draining. This year, make the best of your vacation by sleeping well throughout the trip. Use these [Blue SleepPhones \(On Sale!\)](#) with the brand new [Dreams CD \(On Sale!\)](#), and you'll wake up ready to hit the beach or go sight-seeing!

The Blue SleepPhones are being discontinued soon. We are offering them at a discounted price. There aren't many left, so act quickly before they sell out!

## Summer Inventory Clearance!

We are clearing out the older models of SleepPhones to make room for new products. Older models of SleepPhones are being sold on eBay at a steep discount. Gently used SleepPhones are at an even steeper discount. Look for auctions frequently throughout July and August.
