

Five In A Row! AcousticSheep™ Earns Multiple Awards As A 2017 CES Innovation Awards Honoree

ERIE, PA - November 15, 2016

For the fifth consecutive year, AcousticSheep LLC will be an Innovation Awards Honoree at the 2017 Consumer Electronics Show (CES) in Las Vegas this January.

Creators of the original headphones-in-a-headband, AcousticSheep has two new products in development that have earned awards this year -- SleepPhones® PERFORM in the headphones category, and DOZER in the Portable Media Players and Accessories category, as well as in the Fitness, Sports and Biotech category.

CES is the world's gathering place for a who's who of emerging consumer technology products and companies, and is where next-generation innovations are routinely introduced to the marketplace.

"Our culture at AcousticSheep revolves around innovation that ultimately helps people enjoy healthier sleep and better lives. Both of our award-winning products in development combine technology and innovation that has directly evolved from previous CES Award Winners," said Dr. Wei-Shin Lai, CEO of AcousticSheep.

Products considered for CES Innovation Awards are judged by a distinguished panel of independent industrial designers, independent engineers and members of the trade media to honor outstanding design and engineering in cutting edge consumer electronics products across 27 product categories.

Previous AcousticSheep CES Innovation awards include SleepPhones® Wireless in 2013, RunPhones® Wireless and RunPhones® Intensity in 2014, SleepPhones® Effortless in 2015 and SleepPhones® Harmony in 2016.

About SleepPhones PERFORM™: Our patented headphones-in-a-headband will combine thin, comfortable wireless audio headphones with internal sensors and intelligent music software that will one day produce a customized soundtrack for your life based on your body's own feedback--no matter when or where you enjoy music throughout the day.

About DOZER: DOZER is a super-cuddly, kid-safe, stuffed toy sheep that will one day ease troubled sleep for children. Packed with high-tech components to help deepen sleep with music, DOZER gets smarter over time to improve the lives of tired parents-- and restless children-- everywhere.

For more about AcousticSheep, LLC, please visit AcousticSheep.com, and be sure to check out our flagship product websites at SleepPhones.com and RunPhones.com, respectively. Visit us in person at CES! Booth 43230, Sands Hall - Tech West.
